Batman Begins was a box office success, with ticket sales topping that of all other movies. 2\$ are drawn from the Gaussian mixture model, and the mean vector μ and the covariance matrix Σ are given. With the given parameters, this mixture can be regarded as a Gaussian process. Given a collection of the three latent vectors, this is a three-dimensional Gaussian random vector. We have done the simulation in R , and the goal was to show the structure of the matrices. We fixed the μ and Σ , and we wanted to show that each latent vector has the distribution of the corresponding Gaussian process, and the correlation between them. It could be interpreted as the result of a simple latent factor analysis. We have also shown the matrices of the estimation of the Σ , which is supposed
