A study is due out this week that will estimate the risk of human

contact with cockroaches, particularly in cities, with some experts saying cockroaches are over-hyped, at least in the United States. Researchers looked at 12 separate states, including the Lower 48 and Alaska, and found cockroaches in all of them. (AP Photo/David Goldman)Q: Popover is not animating in iOS I am trying to build a popover that looks like this. What I want is that the view (popover) will come in from the bottom and leave from the bottom. But what is happening is that the view is coming in from the top but not moving down to the bottom. Here is what I have currently, [UIView beginAnimations:nil context:nil]; [UIView setAnimationDuration:0.4]; [UIView setAnimationDelegate:self]; [UIView setAnimationDidStopSelector:@selector(popoverAnimationEnded:finished:context:)]; self.popover = [[UIPopoverController alloc] initWithContentViewController:self.vieController]; [self.popover present f988f36e3a
